EDUCATION

Rutgers Business School **New Brunswick, NJ**
Bachelor of Science in Finance and Computer Science *May 2027*
Bachelor of Arts in Data Science: Statistics Track

- **GPA:** 3.96 | **Honors:** Rutgers Honors College, Dean's List (All Semesters), Phi Beta Kappa (Junior Year)

WORK EXPERIENCE

Amazon **Bellevue, WA**
Financial Analyst Intern *May 2026 – Aug 2026*

- Built P&L variance attribution decomposing volatile $15M+/month liquidation costs into algorithmic vs manual drivers, explaining MoM/YoY swings and establishing the first tie-out to published close totals
- Identified 31% of volume executing outside the controlled system and a multimillion-dollar definition gap driving unreconciled variance through an audit of 12K+ records, with findings adopted into senior leadership's close narrative
- Developed monthly forecast for backlog of inventory flagged for liquidation, establishing a first forward-looking view where none existed, back-tested over a 24-month window with documented error metrics
- Shipped session auto-titling and token-saving new-tab features for an internal AI platform serving 30,000+ users, collaborating with engineers on implementation and testing and earning formal recognition from the engineering team.

Rutgers SEBS, Infrastructure & Facilities Planning **New Brunswick, NJ**
Data Analyst Intern *Sep 2025 – Dec 2025*

- Engineered automated verification workflow for 300+ building portfolio, eliminating 40+ hours of annual manual work and enabling leadership to shift from an annual to semi-annual audit cycle
- Designed real-time tracking dashboard with automated stakeholder notifications, re-architecting workflow to native SharePoint, cutting licensing costs 60% and verification cycle 35% with zero loss in reliability

Moweb Technologies **Secaucus, NJ**
Software Engineer Intern *Jul 2025 – Aug 2025*

- Developed ETL workflows in dbt-core and SQL, fixing null conflicts and reducing pipeline failures from 20+ weekly to <1
- Delivered optimized financial metric extraction for client reporting, reducing processing times by 40% for real-time analysis
- Directed LLM integration across team workflows, designing workshops that decreased manual reconciliation time by 30%

LEADERSHIP AND COMPETITIONS

Rutgers Shark Tank **Piscataway, NJ**
Business Strategy Lead, "PerkPal" Startup Finalist *Mar 2025*

- Spearheaded comprehensive go-to-market strategy and bottom-up financial modeling for a rewards consolidation platform, sizing a $2.4B+ total addressable market (TAM) across highly fragmented consumer loyalty programs
- Led cross-functional team to pitch business case to investor panel, securing finalist position out of 30+ university-wide startups

Bender Trust Equity Research Competition **New Brunswick, NJ**
Equity Research Analyst *Nov 2024*

- Constructed 3-statement operating model and DCF valuation projecting 5-year growth and capital structure for Ryanair
- Performed comprehensive comparable company analysis (Comps) and scenario testing to evaluate investment risks, synthesizing quantitative findings into a strategic mitigation pitch presented to industry professionals

PROJECTS

Edgar Agent | *SEC 10-K Analytics* *Dec 2025 – Jan 2026*

- Architected API ingesting 100% of SEC 10-K filings, parsing raw HTML into structured financials via LLMs for data analysis
- Abstracted core platform into MCP server enabling on demand access to full filing universe for institutional research

Algorithmic Stock Trading | *Volatility & Price Action-Based Strategies* *Nov 2024 – Jul 2025*

- Constructed Python Alpaca trading bot executing 150+ transactions via volatility and price action signals, optimizing risk-adjusted execution through dynamic position sizing and automated stop-loss logic
- Back-tested execution strategy across 100+ historical market simulations, achieving 10% paper returns and a Sharpe ratio of 1.7 while systematically minimizing daily portfolio volatility exposure

SKILLS, ACTIVITIES & INTERESTS

Technical Skills: Python, SQL, dbt, React, Agent Orchestration, Microsoft Suite (Excel, PowerPoint, Word), Bloomberg Terminal
Financial Skills: Financial Modeling, Valuation (DCF, Comps), Financial Statement Analysis, Variance Analysis, Risk Management
Certifications: Data Build Tool Fundamentals, Bloomberg Market Concepts
Activities & Interests: Quant Finance Club, DECA, RU Sangam, LIBOR, Poker, Legos, Mountain Biking, Strength Training
